Safety Data Sheet

acc. to OSHA HCS

Printing date 10/01/2015

Reviewed on 10/01/2015

1 Identification

- [•] Product identifier
- Trade name: INSTABOND GEL Stock Number: ZCIBG
- · Application of the substance / the mixture Adhesives
- Details of the supplier of the safety data sheet

Manufacturer/Supplier: CREST EAST COAST, Inc. 1109 Industrial Parkway Brick, NJ 08724 1-866-458-9009

Information department: Product safety department
 Emergency telephone number: ChemTel: 800-255-3924

2 Hazard(s) identification

[•] Classification of the substance or mixture

Skin Irrit. 2H315Causes skin irritation.Eye Irrit. 2AH319Causes serious eye irritation.STOT SE 3H335May cause respiratory irritation.

H227 Combustible liquid.

Classification according to Directive 67/548/EEC or Directive 1999/45/EC

K Irritant

Irritating to eyes, respiratory system and skin.

Information concerning particular hazards for human and environment:

The product has to be labeled due to the calculation procedure of international guidelines.

Classification system:

The classification was made according to the latest editions of international substances lists, and expanded upon from company and literature data.

Label elements

• **GHS label elements** The product is classified and labeled according to the Globally Harmonized System (GHS). • **Hazard pictograms**

· Signal word Warning

Hazard-determining components of labeling: ethyl 2-cyanoacrylate

Printing date 10/01/2015

Trade name: INSTABOND GEL Stock Number: ZCIBG

Reviewed on 10/01/2015

(Contd. of page 1)

• Hazard statements Combustible liquid. Causes skin irritation. Causes serious eye irritation. May cause respiratory irritation. **Precautionary statements** Keep away from flames and hot surfaces. - No smoking. Avoid breathing dust/fume/gas/mist/vapors/spray Wear protective gloves / eye protection / face protection. Wear protective gloves. Wear eye protection / face protection. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Specific treatment (see on this label). IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a poison center/doctor if you feel unwell. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. In case of fire: Use for extinction: CO2, powder or water spray. If on skin: Wash with plenty of water. Take off contaminated clothing and wash it before reuse. Store locked up. Store in a well-ventilated place. Keep container tightly closed. Store in a well-ventilated place. Keep cool. Dispose of contents/container in accordance with local/regional/national/international regulations. Other hazards Results of PBT and vPvB assessment

· **PBT:** Not applicable.

• **vPvB:** Not applicable.

3 Composition/information on ingredients

Chemical characterization: Mixtures

• **Description:** Mixture of the substances listed below with nonhazardous additions.

[•] Dangerous components:	
------------------------------------	--

Dangerea		
7085-85-0	ethyl 2-cyanoacrylate	50-100%
26915-72-0	Methoxy Polyethylene Glycol 1000 Methacrylate	0.1-≤0.5%
123-31-9	1,4-dihydroxybenzene	<0.1%

4 First-aid measures

Description of first aid measures

- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.
- After swallowing: Call a doctor immediately.

Information for doctor:

Most important symptoms and effects, both acute and delayed Breathing difficulty

Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire-fighting measures

[·] Extinguishing media

Suitable extinguishing agents:

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- For safety reasons unsuitable extinguishing agents: Water with full jet
- Special hazards arising from the substance or mixture Nitrogen oxides (NOx)

Printing date 10/01/2015

Trade name: INSTABOND GEL Stock Number: ZCIBG

Advice for firefighters

• **Protective equipment:** Wear self-contained respiratory protective device.

6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation

· Environmental precautions: Do not allow product to reach sewage system or any water course.

Methods and material for containment and cleaning up:

Allow to solidify. Pick up mechanically. Ensure adequate ventilation.

Do not use cotton or natural fiber cloths for clean up

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

• Handling:

Precautions for safe handling

Store in cool, dry place in tightly closed receptacles.

Keep away from heat and direct sunlight.

Ensure good ventilation/exhaustion at the workplace.

- · Information about protection against explosions and fires: No special measures required.
- · Conditions for safe storage, including any incompatibilities
- Storage:
- Requirements to be met by storerooms and receptacles:

Store in a cool location.

- Store only in the original receptacle.
- Information about storage in one common storage facility: Store away from oxidizing agents.
- Further information about storage conditions: Store receptacle in a well ventilated area. Keep receptacle tightly sealed.

• Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see item 7.
- · Control parameters

Components with limit values that require monitoring at the workplace:

7085-85-0 ethyl 2-cyanoacrylate

TLV Long-term value: 1 mg/m³, 0.2 ppm

Additional information: The lists that were valid during the creation were used as basis.

- Exposure controls
- Personal protective equipment:
- General protective and hygienic measures:
- The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Avoid contact with the eyes and skin.

- Breathing equipment: Not necessary if room is well-ventilated.
- Protection of hands:

Impervious gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

(Contd. of page 2)

Reviewed on 10/01/2015

Printing date 10/01/2015

Trade name: INSTABOND GEL Stock Number: ZCIBG

• Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

- Penetration time of glove material
- The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
- Not suitable are gloves made of the following materials:
- Cotton or natural fibers PVC gloves

• Eye protection:

Safety glasses

Tightly sealed goggles

· Body protection: Protective work clothing

9 Physical and chemical properties

9 Physical and chemical properti	es
 Information on basic physical and ch General Information Appearance: 	emical properties
Form:	Liquid
Color: · Odor:	Colorless Characteristic
Odour threshold:	Not determined.
· pH-value:	Not determined.
 Change in condition Melting point/Melting range: Boiling point/Boiling range: 	Undetermined. Undetermined.
· Flash point:	87 °C (189 °F)
· Flammability (solid, gaseous):	Not applicable.
Ignition temperature:	400 °C (752 °F)
• Decomposition temperature:	Not determined.
· Auto igniting:	Product is not selfigniting.
Danger of explosion:	Not determined.
[·] Explosion limits: Lower: Upper:	Not determined. Not determined.
· Vapor pressure at 20 °C (68 °F):	0.3 hPa
 Density at 20 °C (68 °F): Relative density Vapour density Evaporation rate 	1.05 g/cm³ (8.762 lbs/gal) Not determined. Not determined. Not determined.
 Solubility in / Miscibility with Water: 	Not miscible or difficult to mix.
· Partition coefficient (n-octanol/water)	Not determined.
 Viscosity: Dynamic: Kinematic: 	Not determined. Not determined.
 Solvent content: Organic solvents: 	0.0 %

• Other information

No further relevant information available.

10 Stability and reactivity

- · Reactivity
- Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- Possibility of hazardous reactions

Reacts with alcohols, amines, aqueous acids and alkalis.

- Reacts with water and acids.
- **Conditions to avoid** No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological information

- · Information on toxicological effects
- Acute toxicity:
- Primary irritant effect:
- on the skin: Irritant to skin and mucous membranes.
- · on the eye: Irritating effect.
- Sensitization: No sensitizing effects known.
- Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations: Irritant

[•] Carcinogenic categories

IARC (International Agency for Research on Cancer)	
123-31-9 1,4-dihydroxybenzene	3
· NTP (National Toxicology Program)	
None of the ingredients is listed.	
OSHA-Ca (Occupational Safety & Health Administration)	
None of the ingredients is listed.	
12 Ecological information	

• Toxicity

- Aquatic toxicity: No further relevant information available.
- Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- **Mobility in soil** No further relevant information available.
- Additional ecological information:
- General notes:

Water hazard class 1 (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

• Results of PBT and vPvB assessment

- **PBT:** Not applicable.
- · **vPvB:** Not applicable.
- · Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Uncleaned packagings:

• **Recommendation:** Disposal must be made according to official regulations.

GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms

Signal word Warning

Hazard-determining components of labeling: ethyl 2-cyanoacrylate

Hazard statements

Combustible liquid.

Causes skin irritation. Causes serious eye irritation.

May cause respiratory irritation.

Precautionary statements

Keep away from flames and hot surfaces. - No smoking.

Avoid breathing dust/fume/gas/mist/vapors/spray

Wear protective gloves / eye protection / face protection.

Wear protective gloves.

Wear eye protection / face protection.

Wash thoroughly after handling.

Use only outdoors or in a well-ventilated area.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Specific treatment (see on this label).

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

Call a poison center/doctor if you feel unwell.

If skin irritation occurs: Get medical advice/attention.

If eye irritation persists: Get medical advice/attention.

In case of fire: Use for extinction: CO2, powder or water spray.

If on skin: Wash with plenty of water.

Take off contaminated clothing and wash it before reuse.

Store locked up.

Store in a well-ventilated place. Keep container tightly closed.

Store in a well-ventilated place. Keep cool.

Dispose of contents/container in accordance with local/regional/national/international regulations.

Chemical safety assessment: A Chemical Safety Assessment has not been carried out.
